A LAST APPEAL.

We return to the subject of the unpaid cofferdam claims to make a last appeal to the Government on behalf of the holders of unsatisfied obligations incurred by REID BROTHERS & Co. Many of the holders are workingmen, whose resources are limited, and who have been kept out of their money for several months. Others are storekeepers and manufacturers who supplied the contractors and workingmen with goods, relying on the supposed virtue of a certificate from the Government engineer of work performed as security for their pay. A certificate from that officer had not failed on previous occasion to act as an "open sesame" to the Treasury; and it was felt that for the Government to decline to honor the certificate of their engineer would be to cast a slur on that gentleman's integrity or competency. Some six months ago, armed with one of these certificates for upwards of $5,000, the agent of the contractors presented himself at the office of the Lands and Works. He was courteously received by the Chief Commissioner, who issued a cheque or order on the Treasury for the amount called for by the certificate. The agent carried the Chief Commissioner's order to the Treasury. He handed it to the Finance Minister. That functionary examined the paper closely and presently remarked that he would not pay it. The agent demanded its return. The Finance Minister locked it in his safe, and entrenched himself behind the counter. Back flew the agent to the Lands and Works, but the Chief Commissioner had flitted to the Attorney General's office. Thither the indignant agent proceeded and found the Chief Commissioner ensconced therein. He had changed characters meanwhile. In the Lands and Works office he was the Chief Commissioner. In the Attorney General's office he was the Attorney General. As Chief Commissioner he had ordered the discharge of the claim. As Attorney General he had instructed the Finance Minister not to pay it. From the day when the iron doors of the Treasury vault closed upon it nothing has been seen of the Chief Commissioner's cheque by any one outside the charmed circle of officialdom. Frequent appeals have been made to the Government for the payment of the cheque so that the liabilities of the contractors might be discharged. The Government has thus far turned a deaf ear to all applicants. While professing intense regard for the welfare of the workingmen they have allowed and are still allowing many of the class to suffer for the barest necessaries of life. The Government have it in their power to relieve the suffering—not from the "charitable allowance" vote, but by the payment of a just claim. Should they do so without further delay they may not earn the gratitude of the workmen and storekeepers; but they will at least not continue to be the objects of their contempt.

AN ANTI-IRISH POLICY.

A few weeks since one of the London dailies that is supposed te reflect or foreshadow the Government policy had a remarkable article on the condition of Ireland and the duty of the Government in dealing with that country. The paper took the broad ground that the Green Isle was nearly ripe for rebellion; that the inhabitants had made demands on the landlords and the Government which, if met, would amount to a virtual surrender of Ireland to its people and a disruption of the Empire. It drew attention to the fact that in every large trade and manufacturing centre throughout England and Scotland there existed Irish Associations, the members of which voted in a solid body for candidates who were supposed to represent their peculiar views and who were pledged to support Home Rule. The Government were advised to adopt vigorous steps towards Ireland and Irishmen; to put down sedition; to arrest those making seditious speeches, and, if forced to take extreme measures, to appeal to the country by a dissolution of Parliament to sustain them. This article was clearly a Governmental bid for the Anti-Irish sentiment of Great Britain. It was commented upon as such by the newspapers, and recent information received by telegraph indicates that the advice then given has been acted upon. The Government have adopted a vigorous policy. They have strengthened the garrisons, doubled the constabulary, and arrested speakers at public meetings. Every movement on the part of the Government seems to point to a desire to court rather than to avoid a collision. Perhaps before many days the final act of the programme will be announced in the midst of a hubbub, the dissolution of the British Parliament and an appeal to the constituencies.

THE CONSTITUTIONAL QUESTION.

The *Herald* admits that it has failed to "get around a donkey" (which is more than its Ulster can say); but claims that it has "got around" *The Colonist* on the question of Mr. WALKEM'S forfeiture of his seat in the House through accepting Dominion employment. When our contemporary shall produce a section of the Constitution Act that will support its view of the matter we shall be glad to give it currency; but it is no answer to a charge that seriously affects the legal adviser of the Crown to assert that he is no worse than some "other fellow."

Mechanics' Institute.

EDITOR COLONIST:—Sir, — A few weeks back your columns gave the public a knowledge of the actual condition of the Mechanics' Institute of this city. Since then I have heard considerable discussion, especially among mechanics, as to the causes of the unsatisfactory condition of so desirable an organization, and, also, have had an interest awakened in myself, although almost a stranger in the city. All admit the advantages of a Mechanics' Institute; none can deny the favorable location, the fine library, choice collection of magazines and papers, and the quiet and comfortable room, where cleanliness and good order prevail. It is evident, then, that the people of Victoria must be indifferent to the progress of intelligence in our day. Certainly young ladies and gents are "losing a golden opportunity," to benefit themselves. As to the young men, they, unfortunately, have far too many gathering places to spend their evenings, and even leisure hours in day time. Something is necessary to make the Mechanics' Institute more attractive; let the ladies feel a deeper interest and by their attendance attract their acquaintances to the source of knowledge where their minds will be improved.

Let me here remark that it has been customary for persons arriving from the mines and remaining in this city over winter to join the Mechanics' Institute. This season has not been favorable to miners, generally, and the dollar a month is stated to be too high; half that amount would be considered reasonable, and be very likely to increase the attendance. In good times half a dozen of dollars is not difficult to get hold of; but not so at present. Prices that were charged when times were good should not be maintained when the greater number sought to be benefitted are not able to make ends meet, and indulge in luxuries.

I am not aware what course the committee in charge purpose taking, but believe a course of a dozen or more lectures and readings could be organized and made a success. Professional gentlemen and others qualified in our midst, or convenient, no doubt would accept invitations to lend a helping hand to a praiseworthy object. Of course no gentleman would fail to select a suitable subject.

A well regulated debating class would give both information and amusement, and benefit those taking part. With such entertainments provided an appeal could be made to the ladies to not only attend themselves, but also induce friends to encourage an institution so well calculated to benefit all who come within its influence. There may be those who feel that they know the best way to conduct an institution of this kind. These are the very people that should come to the front and rally around the officers who are now doing their best to make the Mechanics Institute of Victoria a success worthy of the noble and generous spirit that founded it. It would be an everlasting disgrace to Victoria if this desirable Institution is permitted to fall, or even remain in its present crippled condition. In other places, under like circumstances, wealthy persons have came to the rescue with donations, but here we cannot build upon liberality of this kind. Therefore it is earnestly hoped that all friendly to our Mechanics' Institute will, by kind words and generous actions, do their part in the sustaining of so suitable a place of resort for those seeking to drink deep from the fountains of knowledge, and prove that British Columbians are as intelligent and polite as residents of other lands—no matter whether east of the Rocky Mountains, in the neighboring Republic, or in the Old World.

SPECTATOR.

New Licenses.

EDITOR COLONIST:—The action of the Mayor and Councillors in refusing to grant any more new licenses in Victoria for the sale of spirituous liquors is praiseworthy in the highest degree. Upon the Esquimalt road *within* the space of three miles, there are no less than *seven* public houses—actually one for every half-mile, and one that if closed would be no great injury to the traveling public. I hope, Mr. Editor, you will use your influence to prevent any new applications from being granted for the Esquimalt road.

REAL ESTATE.

VICTORIA, Nov. 29, 1879.

The Reason Why.

My reason for buying Cooking and other Stoves and Parlor Grates at the Albion Iron Works is because I can purchase them there at prices much less than they can be imported for. The quality of the goods is equal, if not superior, to the imported article, and by buying them I get my money back, if not directly I do so indirectly, because the money I pay for an Albion Stove is kept in the country. Do not let unprincipled dealers sell you the imported article when you can help to save the country by buying Stoves, &c., at the Albion Iron Works, Store street, or of any respectable dealer. Examine for yourself and take no other. *

NEW WESTMINSTER ITEMS.—There was a slight fall of hail and snow during Thursday night last. Not sufficient, however, to clothe the earth with a fleecy mantle....A social dance given on Thursday evening for the benfit of the Mechanics Institute was well attended and a nice little sum for the funds of the institution was netted....The *Guardian* says: We are told that the School Trustees are divided on the subject of returning a school ma'am, who has not acquired the requisite certificate for the position. We do not pretend to know the facts of the case, but it must be remembered that the people pay a heavy school tax, and are entitled to the best qualifications to be had for their money. It will be a dangerous matter for our present school system if favoritism is suspected.

YESTERDAY afternoon the steamer Wilson G. Hunt on her passage down from New Westminster called in at Cadboro Bay, where she landed 625 sheep and one horse for Messrs. Van Volkenburgh Bros., consequently she did not arrive here until about 3 p.m. She had on board 85 brls. of salmon, a lot of miscellaneous freight and the following passengers: Mrs. Mordaunt, Capt. McKay, Capt. McAllister, Messrs. B. VanVolkenburgh, A. VanVolkenburgh, Brin, Hunter, Fletcher, Patterson, Leahy, Drouth, Daly, Pearson, Spence, Jaynes, McGregor, McLocklin, Holden, McLollan, Little, Yeates, Harris, McKenzie, Kossuth, Locke, Matheson, Gill and 67 Chinese and Indians.

SATURDAY, Nov. 29.

Johnny, an Indian, charged with maliciously breaking in a door the property of James Morrissey. The prosecuter withdrew the charge and the defendant was released from custody.

Billy, an Indian, charged with breaking a window the property of Sam Sing, was fined $10 and ordered to pay $1.50, the value of the window, in default 14 days' imprisonment.

Jake, an Indian, charged with stealing $27 the property of Charley, a Stickeen Indian, was sentenced to 3 months' imprisonment with hard labor.

Owen Ryan on remand charged with resisting a police officer in the execution of his duty, was bound over in the sum of $100 to appear for sentence when called on.

SAVONA'S FERRY exists now only in name. There used to be a ferryboat maintained there, but a flood carried it away and broke it up and now there is only a crossing. It has returned to primitive principles. For ages the Shuswap Indians crossed their droves of horses at this point, and the white man, after peaceful possession of the country for fifty years, is no further advanced. Will the Chief Commissioner attend to this little matter, or would the provision of ferry accommodation be in opposition to his policy of "sinching" those districts who do not send members to support him?

BROWN & WHITE beg to call attention to new goods just received by them, comprising Ladies' and Children's Cloth Jackets and Ulsters, Hats and Bonnets, Dress Goods, Silks, Velvets, Satins, Velveteens, &c.; also a full supply of Staple Goods of every description at low rates. Termination of the Walking Match.

The 6-days' walking match which has attracted much attention at the Pavilion Skating Rink during the past week terminated at 12 o'clock last night. The attendance of spectators yesterday was more numerous than on any day since the contest commenced and in the evening standing room was scarcely obtainable. The presence of ladies, who evinced a lively interest in the proceedings, was also particularly noticeable. The piano solos, excellently played by Mr. Burnes, Jr., were highly eulogized by the assemblage. A brass band was again in attendance and during the evening popular selections were very well rendered. Mr. W. Pridmore appeared on the track at 8:32 p. m. and performed the rare feat of walking 10 miles in an hour and 24 minutes. His brilliant spurts frequently elicited hearty and long continued applause. At noon McDowell's score was 175 miles and McCarthy's 148. Barnwell, who was virtually out of the race from the first, left the track early in the morning and, acting on the condition, "go as you please," took passage on board the steamship City of Chester for San Francisco. At half-past 10 o'clock last night McDowell had traversed 190 miles and at 20 minutes past 9 o'clock McCarthy's score was 166 miles. About this time J. Seeley, the sculler, came on the track and gave McDowell a brush for a mile or two. At midnight when time was called the score stood: McDowell, 197 miles and 4 laps and McCarthy 170. The judges thereupon declared McDowell the winner of the purse and champion belt of British Columbia. McCarthy takes the second money and Barnwell is entitled to the third. McDowell was on the track 47 hours and 28 minutes and McCarthy 44 hours and 13 minutes. It is rumored that a match between female pedestrians from Portland will shortly take place at the rink.

The St. Andrew's and Caledonian Society's Dinner.

The annual dinner of this Society, which was held at the Pacific Telegraph Hotel on Friday evening, was a most enjoyable reunion. Amongst the invited guests present were Thos. Elwyn, Esq., representing the Pioneer Society; M. Camsusa, Esq., representing the French Benevolent Society and James Douglas, Esq. The toast list was as follows:

The Queen, proposed by the President; music, God Save The Queen.

The Prince and Princess of Wales, proposed by the President; music, God Bless The Prince of Wales.

The Governor General, proposed by Rev. S. McGregor; music, "Arglye is My Name," and "The Campbells are Comin'."

The Lieut.-Governor, proposed by Thos. Russell, Esq., Vice-President; music, Rule Britannia.

Sister Societies, by Vice-President Ross; music, "Auld Lang Syne."

St. Andrew's Caledonian Society, by E. Harrison; music, "Scots wha ha'e."

The Mayor and Council, by the President; music, "We're a' noddin'."

Land O' Cakes by A. Allen; The Clergy by J. F. Smith; The Retiring Officers by J. Millar; The Ladies by J. C. Smith.

A number of volunteer toasts followed and during the evening songs were excellently sung by Messrs. D. Ballantyne, Millar, Walker, Syme, Russell, Dodd, Harrison, Burns, Ross, Foster, Innes and Alexander. The dinner was in every respect a credit to the proprietor of the hotel at which it was served.

English Mail.

The London Court of Common Council recently refused, by a majority of more than three to one, to open the Guildhall Library on Sunday, which had the effect of intensifying the discussion on the propriety of Sunday openings of such institutions.

Mr. Gladstone is expected to publish in the *University Magazine* a series of papers conveying his impressions and experiences in Italy. It is asserted by one to whom the Premier has sketched his idea that the series will embrace the religious, political, and social aspect of united Italy. There is brisk competion among publishers. One rather languishing periodical offered him 100 guineas an article, the price he receives from the monthly reviews; but though "The People's William" is keen about his money, he closed with humbler terms from the magazine of his selection.

Two Lincolnshire farmers sailed for New Zealand from England, the other day, in compliance with a requisition from upwards of 500 farmers and landowners, who occupy or own in the aggregate considerably more than 100,000 acres, asking them to proceed to that colony, in order that, after personal inspection, they may report upon it as a field for emigration for farmers of means and capitalists, with special reference to such as have had experience of farming in Lincolnshire.

A new invention has been tried with success in London in the utilization of the power generated in stopping street cars for the purpose of restarting them and thus saving the extra exertion of the horses. The contrivance is a coiled spring, which is wound up by the stopping of the car, and which, when released, acts on the wheels so as to impart motion. It acts, too, as an assistance to horses up a steep grade, the power having been acquired in proceeding down grade and kept stored up in the spring until the energy is required.

A literary property was sold the other day in London, which strikingly illustrates the vicissitudes of a literary speculation. The *Hornet* was put up and knocked down for one hundred pounds and a few shillings. It was started ten or twelve years ago. At two years old it was returning as many thousands a year; at three it had declined, and was sold for four thousand pounds. To shorten the tale, stinging feebly, it went from bad to worse, until a few months ago, when the Westminster Association, whose affairs are in Chancery, bought it for fifteen hundred pounds. Since then good writing has appeared in it, but not Petrarch nor Burns could galvanize into vitality the dying sheet, which went, with fixtures, plant, and prestige, for a hundred.

The London *Standard* denies the report that Sir John Holker is to be appointed Lord Chief Baron of the Exchequer Division in the place of Sir Fitzroy Kelly, who is to be raised to the peerage.

A SHREWD DARKEY.—"Dat cullud pussun on de jury, him's de man I object to," said a negro when put on trial in the Marion (S. C,) court the other day. The black good man and true was unseated, and the prisoner given acquittal. After his release the darkey was asked what he had against a juryman of his own color. "Nuffin at all, boss," said he, "but ye see, I knowed if I flattered de prejudus ob de odder jurymen dat I got off, an' golly I did."

CLEARING OUT SALE—GREAT REDUCTION IN PRICES.—Being about to take stock we have re-marked our goods and will offer them at such prices as will insure a speedy sale. Special inducements to cash buyers. Furs, Jackets, Ulsters, Dress Goods, etc., remarkably cheap. Call and inspect them at BROWN & WHITE'S, Government street. *

SPECTRE OF THE REVOLUTION.

Effects of the Return of Exiled Communists to France.

[Paris Corr. London Telegraph.]

The amnestied Communists who were brought over in the Calvados arrived, as stated, in Paris at seven o'clock last evening. They were 400 in number, and another batch of 50 is expected soon. The Boulevard de l'Hospital and Gare d Orleans were crowded with eager spectators, among whom were noticed Mr Clemenceau, the well-known deputy for Mont Martre, and M. Humbert, the new Municipal Councillor, himself an amnestied Communist. The travellers were well looked after by the various committees of succor, and the restaurants and wine shops in the neighborhood drove a good trade. Women, young and old, went round, bag in hand, for subscriptions, a remarkable pretty girl, adorned with flaming red ribbons, being successful. The "*freres egares*" had a very warm reception indeed, though, like their predecessors, they looked careworn and hardly in a position to appreciate the ovation of which they were the object. cries of "Vive la Republique!" and "Vive l'Amnistie!" were heard on all sides; but the *Globe*, a Republican journal, whose good faith is unimpeachable, and which had a reporter on the spot, adds that the words "Vive la Commune!" soon drowned all the rest. The *Globe* devotes a leading article on the subject this morning, and says that there is no longer any doubt that the spectre of the Revolution is rising before the Republic. Brusquely we are carried back eight years and are told, "What you term national justice has only been injustice; those whom you have branded as criminals have been the true patriots. This has been our thought for the past eight years. To-day we can speak it right out. Now you are warned." Warned we are, but not surprised, is the comment of the *Globe*. On this question the Government is, if it will, stronger than ever because it is better supported, now that it is provoked, if not threatened. On the other hand, if the amnesty only pleases a few, Article 7 displeases a great many persons. Will there ever be an end to the illusion that bargains are to be made with the Intransigeant? The Government, which has just heard the injunctions of its worst enemies, ought at length to heed the wishes of the whole country. The country wishes to know, and the sooner the better, whither it is being led. These observations of the *Globe*, which I have reproduced at some length, are no pessimist picture, but a faithful expression of the feeling prevalent among moderate-minded men. The return of the amnestied Communists, instead of being regarded with gratitude by their Intransigeant friends, has been converted into a specimen of triumph, and interpreted as a proof of the weakness of the Governmeht.

Things worth Knowing.

1. Child two years old has an attack of croup at night. Doctor at distance. What is to be done?

The child should be immediately undressed and put in a warm bath. Then give an emetic compound of one part of antimony wine to two of ipecac The dose is a teaspoonful. If the antimony is not handy give warm water, mustard and water or any other simple emetic; dry the child and wrap it carefully in a warm blanket.

2. Some one's nose bleeds and the blood cannot be stopped.

Take a plug of lint, moisten, dip in equal parts of powdered alum and gum arabic and insert in the nose. Bathe the forehead in cold water.

3. A young lady sits in a draught and comes home with a very bad sore throat.

Wrap flannel around the throat, keeping out of draughts and sudden changes of atmosphere, and every half hour take a pinch of chloride of potash, place it on the tongue and allow it to dissolve in the mouth.

4. A child falls backward into a tub of water and is much scalded.

Carefully undress the child, lay it on the bed, on its breast if the back is scalded; be sure all draughts are excluded; then dust over the parts scalded with bi-carbonate of soda; lay muslin over it; then make a tent by placing two boxes with a board over them in bed, to prevent the covering from pressing on the scald; cover up warmly.

MIDDLESBOROUGH IN ITS DECAY.—A correspondent of the *Daily News* gives a sad picture of the town of Middlesborough. A few years ago this was one of the most flourishing towns in the North of England. In twenty years its population had multiplied from 8,000 to more than 40,000, and there seemed no limit to its growth. But the depression of the iron trade and the substitution of steel for iron has thrown Middlesborough into great distress. Eighty-six of its one hundred and sixty-five blast furnaces, the most expensively built in the world, are idle and there is no prospect that they can again be opened. Its rail mills are useless till they receive new machinery which there is no capital to purchase. The mansions of its iron masters, palaces most of them, are closed. The billiard-room of one of these places itself cost £50,000—the walls being decorated by an Associate of the Royal Academy. This was but one of many examples of the magnificent extravagance which has been one of the growths of mushroom prosperity. Nearly all the leading men in the town are now poor. Rents have fallen more than 50 per cent. Properties will not realize the mortgages upon them. Hundreds of houses are empty; dozens of shops are closed; and upwards of 5,000 men, women and children are starving.

Why the Book-keeper Stole.

[From the New York Graphic.]

He had a wife.
His salary was $2,500 per annum.
But she complained.
She wanted a better house.
Better clothes.
Nothing fit to go out in.
No country cottage.
Nor carriage.
Nor front pews.
Nor society.
She coverted a place on the ragged edge of the select 500.
She kept it up.
Night and day.
And moaned and
Groaned and
Wept.
He lacked style, also.
As well as new clothes every six weeks, and various other things.
He knew how his employer made seven hundred daily on the street.
A thousand or so would not be missed for a few hours.
So he took, it, went upon the street,
She got her sealskin.
He took more and lost.
More to get that back, and lost.
More yet.
Defalcation discovered.
He wears the penitentiary check.
Beware.
But if you win regularly society won't be hard on you.
But if you lose, society will sit down on you.
Beware.
Better is a modest room up two pairs of back stairs than a cell in the Tombs.
And a plain woolen jacket than a pair of prison uniform pants on poor Charlie's leg.

A very Little Boy, indeed.

In a small frame building in West Fifty-fourth street, near Ninth avenue New York, is, perhaps, the tinest specimen of humanity to be found in any part of the world. Mrs. George Fromm, the mother, says that at the birth of her baby boy, three weeks ago, it weighed only eleven ounces and three-quarters, its height being five inches, and breadth across the shoulders two and a-half. Three weeks have developed the child into larger proportions, especially the head, which was at first no bigger than an apple. On the 4th inst. this wonderful baby was baptized in the German Protestant Episcopal Church in Forty-second street, his father's name, George being chosen. Mrs. Fromm is a good natured pleasant looking woman of German birth, five feet seven inches in height, weighing 135 pounds. The father of the tiny babe weighs about 160 pounds. Eleven years have elapsed since their marriage, and they have had five other children, all of the ordinary height and weight. The mother is particually atached to her last mite, who promises to become a sound, healthy child. Regular features and bright clear eyes, with fine delicate skin, are its distinguished characterics. The fingers and toes are so small that a miscroscope would be a good thing for a visit to take in his pocket.

THE PRISON LIFE of the Directors of the City of Glasgow Bank, liberated on the 1st ult. from Ayr Prison was not a hard one; in fact, it would appear that, as compared with their fellow-prisoners, they have fared sumptuously every day. All the prisoners in Ayr Prison—Glasgow Bank Directors included (except Mr. Salmond, who was in hospital, and unable to leave his bed)—rise at half-past five every morning, when they roll up their bedding, and put it outside the cell door. After this, the daily task of brush and mat making commences, and continues till eight o'clock. Each prisoner has to work 28lbs of unspun yarn per week, but as some of the directors had difficulty in doing their tasks, another prisoner was put into the cell along with them during the day to assist, as a failure to make up the necessary complement would have entailed the loss of their bed or supper.

ELECTRICITY.

THOMAS' EXCELSIOR ECLECTRIC OIL.

Worth Ten Times its Weight in Gold—pain cannot stay where it is used!

It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured Bronchitis. Fifty cents' worth has cured an old standing cough. It positively cures catarrh, asthma, and croup. Fifty cents' worth has cured crick in the back, and the same quantity lame back of eight years' standing. It cures swelled neck, tumors, rheumatism, neuralgia, contraction of the muscles, stiff joints, spinal difficulties, and pain and soreness in any part, no matter where it may be, nor from what cause it may arise, it always does you good. Twenty-five cents' worth has cured bad cases of chronic and bloody dysentery. One teaspoonful cures colic in 15 minutes. It will cure any case of piles that it is possible to cure. Six or eight applications are warranted to cure any case of excoriated nipples or inflamed breast. For bruises, if applied often and bound up there is never the slightest discoloration to the skin. It stops the pain of a burn as soon as applied. Cures frosted feet, boils, warts and corns, and wounds of every description on man or beast.

BEWARE OF IMPOSTERS.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of *S. N. Thomas* is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and *Take no other.* Sold by all medicine dealers. Price 25 cents. Green's August Flower.

It is natural for people suffering with Dyspepsia and Liver Complaint or any derangement of the digestive organs such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-burn, Water-brash, gnawing and burning pains at the pit of the Stomach, Yellow Skin, Coated Tongue and disagreeable taste in the mouth, coming up of food after eating, low spirits, &c., to put off from day to day buying an article that they know has cured their neighbor, friend or relative, yet they have no faith in it until it is too late. But if you will go to your Druggist and get a bottle of GREEN'S AUGUST FLOWER your immediate cure is as certain as you live. Sample Bottles of this medicine can be obtained for 10 cents to try its superior virtue.

Regular size 75 cents. Try it, two doses will relieve any case. *

DR. J. COLLIS BROWNE'S
(Ex Army Medical Staff.)

CHLORODYNE

IS THE ORGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July, 12, 1861.
The Public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.
This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretionsof the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousand of persons testify to its marvellous good effectsand wonderful cures, while medical men extol its virtues most extensively.
CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.
CHLORODYNE effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.
CHLORODYNE acts like a charm in diarrhœa, and is the only specific in cholera and dysentery.
CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.
CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.
The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Chol ra was CHLORODYNE.—*See Lancet*, Dec 31, 1864.
From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"CHLORODYNE is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."
Dr. Lowe, Medical Missionary in India, reports (December, 1865) that in nearly every case of Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.
Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."
See leading article, *Pharmaceutical Journal*, Aug. 1, 1869, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always righ to use his preparation when Chlorodyne is ordered.
CAUTION.—None genuine without the words "Dr J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
Sole Manufacturer, J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London.
Sold in bottles at 1s. 1½d., 2s. 9., 4s 6d. and 11s.
